

Capability Statement

Core Competencies:

MBE is proud to have had their core competencies developed by the input of all employees. This process allowed us to further our accountability and flexibility at both the individual and company level. Below are Murray-Benjamin Electric's 5 Core Competencies

Communication – Provide clear, concise, accurate, and timely information. Provide context and/or implications, rather than just facts and data.

Quality – Thoroughness, accuracy, and completeness exhibited in routine assignments and special projects.

Initiative – Assume responsibility and respond appropriately to improve further outcomes.

Knowledge – High degree of competence in the field and the ability to apply that knowledge to stay ahead of new developments.

Dependability – Timeliness of pursuing and completing objectives.
